positions with an estimated 20 antiaircraft guns. the guns had a barrel length of more than two meters, a caliber of about 10-12 centimeters, and are set on low, thick rubber-tired wheels. The guns were about three meters apart and the gun muzzles were pointed upward.

2. only one guard around these guns. however. in the vicinity, 400 soldiers and two trucks.

25X1

Comment: A previous report stated that in the vicinity of the area although a little closer to the bridge, there were four antiaircraft guns, rather than the 20 mentioned
